Mercedes-Benz

A REAL MERCEDES
DOES NOT HAVE
A STANDARD SIZE.

18 months in development, lots of passion, creativity and, above all, technical expertise allow big emotions to become 100% faithful miniature models.

But the identical depictions are more than just copies, they are little works of art in scales 1:18, 1:32, 1:43, 1:50 or 1:87. The dynamic energy of a spoiler, the ingenious design of the vent grille or the delicate creation of the operating elements in the cockpit – everything that makes the original so fascinating is expressed in the model.

Based on the latest CAD technology, CAD designers, product managers of Mercedes-Benz model cars and model car manufacturers create these proportionally consistent masterpieces. Alongside design and function, it is, of course, also the faithful paintwork in an authentic colour shade with perfect light edges. More than 300 real collector's items make it possible to experience the fascination and passion yourself. Discover them now in this brochure, at your authorised Mercedes-Benz dealer or in our online shop at shop.mercedes-benz.com.
